Get support from a real person 24 hours a day.

- Enterprise class email, address books and calendars that synchronize across your desktop, smartphone and tablet
- Gain a professional appearance with your own @yourbusiness.com domain
- Anti-spam protection with privacy and no advertisements
- Perfect for one, several or all of your employees

Cloud Email from Westechs offers professional-grade email, address books and calendars. Powered by Microsoft Outlook, you are always a single click away from all of the information that helps your organization communicate, collaborate and organize.

Say goodbye to slow, clunky web-based email and eliminate intrusive advertising. Brand your email with a professional @yourbusiness.com domain that consumers increasingly expect.

Cloud Email synchronizes all of your email on your desktop, smartphone and tablet. If you read an email on your phone, it is marked read on your desktop. If you reply to an email on your tablet, your reply is automatically synchronized to all of your devices.

Just like all your email is available on your devices, your address book and calendar are also synchronized everywhere.

Adding a contact or calendar item on your desk means that it is instantly available on your other devices.

Cloud Email makes a small business more efficient and agile. Employees can easily share mailboxes, address books and calendars with each other.

With unlimited storage and large attachment sizes, Cloud Email is the perfect solution for one, some or all of your employees.
